

LIKHITH VALLABHANENI

(470) 456-7579 | lvallabhaneni6@gatech.edu | linkedin.com/in/likhithvall | Atlanta, GA

EDUCATION

Georgia Institute of Technology

Aug 2023 – Dec 2027

Bachelor of Science in Industrial & Systems Engineering — Analytics & Data Science

Atlanta, GA

- Relevant Coursework: Regression & Forecasting, Statistical Methods, Database Systems, Optimization, Simulation
- Study Abroad: Georgia Tech–Lorraine, Metz, France (Summer 2025)

EXPERIENCE

Epic Intentions Consulting — Georgia Tech

Jan 2026 – Apr 2026

General Consultant

Atlanta, GA

- Led cross-functional pro-bono engagement for nonprofit client, coordinating across Finance, Operations, and Leadership to structure analytics initiative and define project milestones
- Conducted stakeholder interviews to diagnose client pain points, formulating hypotheses and synthesizing qualitative insights into structured project plan with prioritized workstreams
- Analyzed multi-year financial and operational data to identify growth opportunities and quantify cost inefficiencies, developing framework for sustainable performance improvement
- Presented strategic recommendations to executive leadership, translating complex analysis into actionable guidance adopted by client decision-makers

Sports Performance Intelligence — Georgia Tech VIP

Jan 2026 – May 2026

Undergraduate Researcher

Atlanta, GA

- Collaborated with interdisciplinary team of engineers, pre-med students, and analysts to define product requirements for athletic performance analytics platform
- Designed interactive dashboards enabling coaching staff to monitor key performance metrics and identify actionable trends across player datasets
- Led user research sessions with athletic staff, iterating on product features based on structured feedback to improve platform adoption and utility

PROJECTS

Nonprofit Financial Dashboard | Excel, Tableau, QuickBooks

- Designed financial health dashboard for nonprofit client, gathering requirements from stakeholders and structuring month-level cash flow analysis to support data-driven decision-making
- Automated reporting workflows and created standardized account mapping structure scalable across multiple organizations

GT Football Analytics Platform | Python, Machine Learning

- Developed analytics tool leveraging Pro Football Focus data to analyze 1,000+ plays, generating insights on player matchups and competitive positioning for coaching staff
- Built user-facing query interface enabling real-time retrieval of strategic insights, improving game preparation workflow efficiency

Aviation Incident Analytics Pipeline | Python, SQL, Tableau

- Built end-to-end data pipeline integrating multiple FAA data sources, cross-referencing 10,000+ incident records to identify severity patterns and correlations
- Created interactive Tableau dashboard visualizing geographic and temporal trends for executive-level safety reporting and intervention prioritization

LEADERSHIP & ACTIVITIES

Eagle Scout, Boy Scouts of America: Led 7-month community initiative; developed project plan, secured \$2,000+ in funding, and coordinated 30+ volunteers to completion. Rank achieved by only 4% of Scouts.

Varsity Athletics: 4-year letterman in Football and Wrestling; demonstrated discipline, resilience, and teamwork through competitive athletics.

Global Experience: Traveled independently to 30+ countries across 4 continents; conversational in Telugu; demonstrated cross-cultural adaptability and resourcefulness.

ADDITIONAL

Technical: Python (Pandas, NumPy, Scikit-learn), SQL, Tableau, Power BI, Excel (Advanced), Git

Languages: English (Native), Telugu (Conversational) | U.S. Citizen
